

All For Love

Words & Music: Müller/Dawson/Rumpf

I lay down in the cool green grass
Clouds above played games before my eyes
We're driven on our way by the same hand
A mighty, wise hand, I realize

I rested on the forest floor
Touched the sun, alive in every tree
Heart and soul that here and now
Always was and forever always will be

All for love
I gave all my love to you
So many hopes and my worst fears
And all for love
So many tears were blessed, I knew

I walked out in the countryside
Looked up at the endless, starry sky
The universe so huge in size
And every detail was so right

I felt at home on the rocky shore
The wind, the wave - a part of me
The sea wrote symbols in the sand
For you and me and for our unity
