

Come And Go

When you're afraid of what the future brings
When you're surrounded by a lot of things
When you feel worn out from top to toe
You're at the age to know for sure

Yeah, you know, we come and go
Yeah, you know, we're gonna come and go

You know we're living on a turning stage
The Great Master will write your last page
Did you find the answer to satisfy your soul
You're at the age to know for sure

Yeah, you know, we come and go
Yeah, you know, we're gonna come and go

When your kids are big and tall
And you don't understand them at all
When making love is a woe
You're at the age to know for sure

Yeah, you know, we come and go
Yeah, you know, we're gonna come and go
