

Credit On The Future

Words & Music: Inga Rumpf
(c) Francis, Day & Hunter/EMI

Will your comfort calm your scruples
When you're beating up the kids for what they're fighting for

Will you really be so low down in your luxury
Getting your kids breaking the law

Will your money bring you pleasure
Kids are fed by fish out of infected seas

Will you see down on your last bed
All around desert - all around artificial trees

Living well - with credit on the future
Living well - with credit on the future

You take my tax, you take my vote
You take my future, take my hope and spoil the seed

You wash my brain, control my life
Give the information to the ones who can't stop their greed

I'm quite young and you're quite old
I'm depressed and you're so bold to get the kids down

I'm quite strong because of need
And you're the one who gets me down to the underground
