

Love Is Starting Me Up

You can feel it - just close your eyes
You can touch it - it's very nice
You can hear it - don't wait too long
You even smell it - you can't go wrong

Have it once - have it twice
Oh, maybe three times - what a surprise
You can use it - carefully
It's good for you and it's good for me

It's like a shot in your vein
It can drive you insane
It makes you feel high
Oh, everybody knows why

Love is starting me up
It circles like a loop in my brain
Love is starting me up
My days and nights are not in vain
Love is starting me up - yeah

It makes me smile - it keeps me true
And it's my main inspiration, too
It makes my day - it makes your night
It makes our heart gonna beat alright
