

## Love Train

Words & Music: Rumpf/Müller/Kravetz  
Publisher: Antenna/Universal

If you walk afoot on sandy roads  
Dust will be your blues  
And the signed up miles by the crossroad tracks  
Don't care about your teared up shoes

You can ride a bike hillup, hilldown  
The wind will find your eyes  
And your spinning feet turning 'round and 'round  
They could well give you advice

Take the love train  
Take the love train

You can go by car on a freeway drive  
There's stop and go ahead  
And the fuel you need for the next sixty miles  
Makes a hole in the earth

There's still another possibility  
You can fly a turbo jet  
Send a telefax in computer networks  
You could get lost in the facts

Take the love train  
Take the love train

We can dance and sing, laugh and swing  
Trust will blaze the trail  
And our life is sure, nice and mature  
Love laid out the rail

Take the love train  
Take the love train

And we go, go, go fast or slow  
We're passing hills and vales  
We can dance and swing, laugh and sing  
Love will blaze the trail

Take the love train
