

Ballroom Of Love

Words & Music: I.Rumpf/N.Müller
Musikverlag: Plaene

A thousand people, flashing light
There's a fever in this night
Roaring sound, dancing feet from wall to wall

I see you - just one thought
You're a sight for the gods
In this night I suspend the force of gravity

I hear the beat
I hear the beat
I hear the beat
I hear the beat of my longing heart
And I fly into a passion
I hear the beat of my longing heart
I'm a dancer in the ballroom of love

High tension, skin to skin
Let it out, let it in
Beating pulse, shivering limbs - ecstasy

What is left, what is right
Is it day or delight
I just passed the gate to eternity
