

I Can't Stop Myself

Words & Music: Müller/Rumpf
Copyright Control

I begin to sing and you're watching me
Your eyes in my eyes – so special waves

With a long sustain we can get
Closer and closer to our grace

We've got the power and the good advice
To use the potion that breaks the ice

No fear today
I wanna live in a loving world
Now is the time to believe in tomorrow

Love throws arrows
Hunting hearts full of need and faith
When love is mine I'll give it to the others

What makes a man hesitate
Right at the turning of the age

Love is a wonder – I can't stop myself
Is it any wonder – I don't hesitate
Love is a wonder – I can't stop myself
Watch the sign of time

Don't search too long
When it's love then it's good for you
Light up my light and be my friend

The morning has come
Take a look through the heaven's door
The gate is wide – real saints are lovers

Not far away from paradise
Love is a blessing in disguise
