

It's Only Love

It's only love
But it gives the world a smile
It's only love
Makes it peaceful for a while

I sing every day when I'm feeling fine
And when I've got time enough
And everything that comes to my mind
Is a story about love

All my friends say "You're a sensible girl
Have any problems at all?"
And I say "Sure man, there's too much hate"
That's when I hear the call

It's only love
But it gives the world a smile
It's only love
Makes it peaceful for a while

It's only love
But it makes the world feel good
It's only love
From the ocean to the woods

Every day since I was born
I looked around
There's no better remedy
When you are down
