Clap your hands  
Tap your feet  
Let the whole world listen  
To your heartbeat

Turn your head  
To the left and right  
Let your neighbour know that  
Everything is all right

Let's feel all right  
Yeah, let's feel all right

Let better times come  
Make dreams come true  
Let all the joy jump and shout  
In me and you

Let's feel all right  
Yeah, let's feel all right

Let the world grow up  
Let the stars come down  
Let's open up the gates  
Till heaven is all around

Let's feel all right  
Yeah, let's feel all right

Until heaven's door is open  
We've all got enough to do  
This is a little prayer for  
Hope is good for me and you

Step by step we climb the ladder  
Hear the Lord, he's calling you  
Clap your hands and tap your feet  
Let the world listen to what you do  
Get on, get on  
Let's feel all right

I know we've got all the power  
So that heaven will be ours  
When we knock on heaven's door  
We'll get all and more and more
