

Open Me Up

Words & Music: Inga Rumpf

Let your body talk
The most perfect speech
I will listen to you, babe
Let me feel, you teach

Pump my heart right up
Make my brain confused
Let our souls meet somewhere
And our heartbeats groove

There's a cupid shooting striking
Love is here to win

Open me up - I'll let you in
Open me up - I'll let you in

Oh, you're so sweet
I want you close
I never felt so good, babe
Sweet overdose

Control my lips
With your gifted tongue
Open me up, babe
'Til we two are one

There's a cupid shooting striking
Love is here to win

Open me up - I'll let you in
Open me up - I'll let you in

No, I don't need no religion
To believe in what I feel, oh, babe

No, I don't need no religion
To believe in what I feel
You don't need no description
To know how to handle me
